Archive Classification Index

This document provides the classification structure used for historical company records. It was created to support the archive digitisation project.

Archive Areas

Section	Description	Status
A	Financial Records	Complete
B	Contracts	Complete
C	Human Resources	Review Pending
D	Management Documents	Complete
G	Historical Material	Restricted

Classification Rules

- All documents require an identifier.
- Previous versions must be retained.
- Unknown ownership documents require review.
- Restricted sections require approval.

Archive Notice

Section G remains restricted because several documents stored there were created before current classification procedures existed.

Access should only be granted after confirmation from Management.
