

Management Meeting 05

Classification: Internal

Revision: 1.0

Author: Administration

Archive Progress Update

The archive review has progressed according to schedule. Several historical documents have been classified and transferred to the digital inventory.

Discussion Points

- Review old contracts.
- Confirm document ownership.
- Check access permissions.
- Update archive index.

Administration noted that some documents reference departments that no longer exist under the current organisation structure.

The matter was postponed until the new organisation chart was approved.
